

Call for Symposia

The Program Committee for the 18th International Symposium on Olfaction and Taste invites proposals for symposia.

Symposium proposals must include the following:

1. Symposium Title.
2. Names and affiliations of up to 2 symposium organizers.
3. A paragraph synopsis of the symposium theme/idea.
4. Names, affiliations and tentative talk titles for 4 speakers.
5. Suggestions for potential sponsors including corporations, government agencies or non-profit organizations.

In evaluating proposals, the program committee will favor proposals whose topics concern newly emerging fields. In particular, the committee would like to encourage the inclusion of young investigators, as well as geographic and gender diversity among the speakers and discussants.
