

### **Faculty in Ingestive Behavior (Assistant/Associate/Full Professor)**

The Department of Nutritional Sciences seeks applications for an investigator in the science of ingestive behavior at open rank (Assistant, Associate or full Professor). The successful candidate will be a highly promising new investigator (Assistant Professor) or an established scientist (Associate Professor or Professor) who is dedicated to advancing the field of ingestive behavior through innovative research. Applicants should have academic training in nutrition or a related discipline (e.g., physiology, neuroscience, food science, biobehavioral health, psychology, public health, bioinformatics) and have demonstrated expertise in ingestive behavior. Applicants for Associate Professor and Professor must have demonstrated success in obtaining significant extramural funding relevant to this area.

Penn State has a long history of excellence in ingestive behavior and the successful candidate will complement existing expertise in this area. Currently funded studies focus on satiety, neuroscience, eating and feeding behavior across the lifespan, energy balance, physiology related to behavior, flavor perception, behavioral genetics, and behavioral interventions. We are seeking a highly motivated individual with strong research and teaching experience. We plan to work with the successful candidate to leverage our strengths and recent successes in obtaining funding to enhance training in ingestive behavior at the undergraduate, graduate, and post-doctoral levels. A doctoral degree (PhD, MD and/or equivalent) is required. Applicants for Assistant Professor should have completed their doctoral degree and have a demonstrated record of research publications and presentations, research funding and/or postdoctoral experience. Applicants for Associate Professor or Professor should have well-developed research programs and evidence of success in obtaining extramural support. We are looking for outstanding research expertise as well as excellent potential to contribute to the scholarship of teaching and learning.

To apply, interested candidates should complete an on-line application (<https://psu.jobs/job/83687>) and upload (1) a letter of application stating his/her qualifications for the position; (2) a personal statement addressing interests and vision in both research and teaching; (3) a current curriculum vitae; (4) the names, titles and complete contact information for three/four professional references who may be contacted. All application materials must be uploaded via the online application portal (do *not* send via email). All other inquiries about the position can be addressed to the chair of the search committee, Barbara J. Rolls, PhD, Professor and Occupant of the Helen A. Guthrie Chair ([bjr4@psu.edu](mailto:bjr4@psu.edu)). Please indicate "Ingestive Behavior" in the subject line, and cc: Julie Brenneman ([jqk7@psu.edu](mailto:jqk7@psu.edu)).

Review of applications will begin immediately and continue until the position is filled. A desirable start date is July/August 2019. Salary is competitive, commensurate with background and experience. An attractive benefits package is available.

CAMPUS SECURITY CRIME STATISTICS: For more about safety at Penn State, and to review the Annual Security Report which contains information about crime statistics and other safety and security matters, please go to <http://www.police.psu.edu/clery/>, which will also provide details on how to request a hard copy of the Annual Security Report.
